Sliding Fees & Discounts

Lifespan has a discount fee schedule to accommodate everyone who qualifies. The portion of your medical care not covered by insurance or another program can be discounted so you pay only a portion of these charges based on your income and family size. Contact Lifespan staff for more information.

Insurances Accepted

Lifespan accepts many types of insurances.

We accept:

- ✿ TennCare
- ✿ Medicare
- ✿ CHAMPUS/ Tricare
- ✿ Blue Cross Blue Shield
- ✿ Cigna
- ✿ Workers Compensation
- ✿ Most Private Insurances

About Lifespan Health

Lifespan is a not-for profit community health center founded on the belief that everyone should have access to affordable, quality health care. A healthy community is one in which all of its members begin life with hope, experience life with joy and end life with dignity. Lifespan is under the direction of a board of community members; more than half are patients of the center.

Lifespan started out as Hardin County Regional Health Center with the first clinic opening on Pickwick Road in Savannah in 1995 with a physician's assistant providing services. It employed its first physician in the following year. By the end of 1996 the clinic was providing services to about 2,000 people.

In 1999 a contract with the Veteran's Administration in Memphis began. It continues through today with our Florence Road location proudly providing services to over 1,400 veterans from all around the surrounding areas.

Today, Lifespan Health has six locations serving Hardin and Wayne counties, with 20 providers who see more than 12,000 patients per year. Other locations are being considered as the need grows for affordable, accessible care.

Lifespan Health is a community partnership. When you choose to use Lifespan for your health care needs, you help us extend health care to your neighbors.

Lifespan's Mission

Lifespan is committed to improving the life of the communities it serves by providing high quality care and promoting healthy lifestyles.

Commitment to Caring Accessibility – We continue to expand and employ more providers due to the increasing number of people who use our services.

Affordability – We will not refuse service to anyone based on ability to pay. We're partly funded by the federal government to provide services to people who otherwise wouldn't be able to afford them. The cost of services is based upon the patient's household income.

Quality – Due to our federal funding status our doctors are required to be reviewed no less than once every three years and have to meet federal guidelines to continue to work for Lifespan and also to serve you.

Staff – We pride ourselves on having a friendly and truly caring staff. We strive to make everyone feel welcome and encourage people to ask questions of anyone in the office.

Special Programs – Through contracted pharmacy arrangements, prescription discounts are available to all patients. All sites participate in the Vaccines for children program.
